GMO Proceedings Against Pfizer and Moderna, AU

VID510/2023 Fidge v Pfizer & Anor

Injunctions are sought against Pfizer and Moderna on the basis that they have failed to apply for the necessary licences to deal with Genetically Modified Organisms in Australia, pursuant to the *Gene Technology Act 2000* (GT Act).

Case Summary:

It is alleged that Pfizer and Moderna's Covid-19 vaccines (both monovalent and bivalent products (C-19 Products)) satisfy the Australian legal definitions for being deemed Genetically Modified Organisms, pursuant to **section 10** of the GT Act.

We Need Your Help!

Let's work together to educate the masses and spread the word about the Children's Health Defense - Australia Chapter. Our mission is to end childhood health epidemics by working aggressively to eliminate harmful exposures, hold those responsible accountable and establish safeguards to prevent future harm. We fight corruption, mass surveillance and censorship that put profits before people as well as advocate for worldwide rights to health freedom and bodily autonomy.

If you think our mission is important, please [sign up for free updates](#), [paid membership](#) or [donate](#). Every penny of your support will help us fight for a world where all children are healthy and free from environmentally induced injuries (including vaccines).

Mental Health

The 1st of a series of short discussions by a group of psychologists and mental health professionals discussing the psychological elements within and consequent of the C19 policies. With Ros Nealon-Cook, Julie Santall, Dr Debbie Garratt & Lindsay Spencer-Matthews.

Wellness

Marc Cohen

MBBS (Hons), PhD (TCM), PhD (Elec Eng), BMed Sci (Hons)

Professor Marc Cohen is one of Australia's pioneers of integrative and holistic medicine and has made significant impacts on education, research, clinical practice and policy. He is a registered medical practitioner with degrees in western medicine, physiology and psychological medicine along with PhDs in Chinese medicine and biomedical engineering. In 2002 he became Australia's first Professor of Complementary Medicine and Head of the Department of Complementary Medicine at RMIT University, which was by far the largest such department in the country with around 100 staff and 1000 students. He currently leads wellness research within the School of Health and Biomedical Sciences at RMIT University and serves as Program Leader for postgraduate wellness programs along with teaching undergraduate courses on Medical Diagnosis and Medical Examination.

Food

A long time ago when Aboriginal people lived on the good and healthy bush foods in the bush, they lived without any sickness: they lived a strong and healthy life. But now it is different.
